4. **GDPR Information**

Morris Commercial Club Our Data Processing Statement

Currently the club maintains three databases :-

1. **The Membership List.** This information has been sourced from Membership Application Form and its primary use is to generate address information for the mailing the clubs magazine, for membership administration, and as subset, (excluding the postal address), in the *Members Handbook*. This is circulated only to members. For new members, a subset is used in the first *Recalling* issued after they join, to welcome them as new members. Where a member has indicated they wish certain elements to be withheld from circulation, such as phone number or email address, that information is not included in published lists.

Age. A member's age is requested so that the club can know the age profile of its membership, e.g. number of members of a particular age, publish that age profile, and plan accordingly. However, the age of a particular member will not be published, unless otherwise requested.

2. **The Vehicle List.** The primary source of information for this list is the Vehicle Details Sheet and where one has not been completed, basic vehicle information is derived from the Membership Application Form. This information is used to generate the Vehicle List in the *Members Handbook*, and can be used to derive captions for photographs or for vehicle information sheets on displayed vehicles. Information may also be used to assist in the dating of similar models of vehicles.

3. **Members Archives List.** This information is derived from archived forms completed by members.

Please be aware of the following :-

The paper copies of Membership Application Form and Vehicle Details Sheet are filed in membership number order, and are kept for historical purposes. This is to enable the club to use the same membership number for a returning member, and helps in tracing the history of a vehicle.

The club is a not for profit body, with a particular aim which relates to members, and data records are kept indefinitely for historic research purposes. Data is not passed onto any third party, other than that required by a printer to mail out the magazine. The club will not pass a member's address on to another member, except by specific consent. E.g. for a vehicle inspection.
